**Quick Start Guide: Assembly**

Simple steps to get you cleaning with your new *Shark® Navigator™ Lift-Away® Pro* vacuum.

---

**Dust-Away™ Hard Floor Cleaning:**

1. Slip two of the tabs between the suction nozzle and the *Dust-Away™* base and attach them to the front fasteners on the base. Then pull the other two tabs tightly around to the back fasteners on the base. For best results, ensure that the pad is flat against the bottom surface and secured tightly.

2. Attach *Dust-Away™* hard floor attachment onto the end of the extension wand.

3. Press the On/Off switch to the “I” position to turn the suction motor on and begin cleaning all hard surfaces.

**Carpet and Bare Floor Cleaning:**

1. Attach floor nozzle (a) into the bottom of the canister (b).

2. Insert extension wand (c) into the back of the canister, slide on the accessory holder (d) and place the on-board tools (e).

3. Insert handle (f) into the top of the extension wand and connect the hose (g) to the back of the canister.

**Portable Lift-Away®**

1. Press handle release button to detach handle (or handle with extension wand).

2. Press red nozzle release button (h), place foot on nozzle and pull the canister up.

3. Attach desired tools to clean.

**Important:** Use only in Portable Lift-Away® mode. 

**Important:** Do not use to clean damp floors or wet/sticky messes.
EMPTYING THE DUST CUP

1 Pull up the latches on the sides of the dust cup to release.
2 Hold the dust cup over a trash receptacle and press the bottom door release button.
3 If needed, turn the dust cup upside down over the trash and press the top door release button.

QUICK START GUIDE: USE AND CARE

IMPORTANT: Loss of Suction may occur if foam filters are not cleaned every 3 months. Rinse and allow to air dry completely. Foam filters may appear dirty after use - this is normal. Please refer to pages 14 and 15 of the manual for instructions on cleaning the filters.

SUCTION CONTROL

This vacuum has huge suction power. The suction can be adjusted to make the vacuum easier to push and pull on certain types of carpets as needed.

Adjust the amount of suction by rotating the suction release collar on the handle counterclockwise to reduce the suction or clockwise for maximum suction.

INDICATOR LIGHT

The motorized brush indicator light will illuminate Green when motorized floor brush is on. If there is a blockage or jam, the light will turn Red (see page 9 of the instruction manual).

BRUSH ROLL ON/OFF:

1 Press the ON/OFF switch at the top of the canister to the ‘I’ position to vacuum bare floors (straight suction only) or in Lift-Away® mode or to the ‘II’ position to engage the motorized floor brush (for vacuuming carpets and rugs).

2 Press the floor nozzle down with your foot and tilt the handle back towards you to engage the brushroll.
